CLUB BIRD PROGRAM

FOR ASSISTANCE CALL RODNEY ALBIN

CONTROLLED SHOOTING: We are a controlled shooting area, licensed by the Missouri Department of Conservation to **hunt pen-raised birds**. All birds under this program that are released or shot on the property must have a band affixed to the leg. **NO** outside birds are to be brought onto club property without prior board approval.

Quail program birds are located in the south pen. Birds are chased into the catch box by opening the south door and looking in. Birds will walk into the catch box on their own if the catch box door is open. A pole (on top of pen, leaning against fence or inside the south door) can be used to persuade the birds into the catch box. Once the birds are inside the catch box close the catch box door by undoing the clasp and lowering. Shut and lock the south door (place clasp back on door) and open the north door by the catch box. Reach into catch box and place caught birds into a container (best use gloves). Shut and lock north door (place clasp back on door). Pay for birds (an honor system is used so please pay for birds used or any escaped when trying to catch them).

Current Bird prices are posted in the shed! Birds are paid for in the shed next to the bird pen, which also has a sign-in book, envelopes and a money drop-box. The Key for the pen is located in the shed, please make sure to place it back on the hook. Each person using birds on the club property requires a Missouri Small Game Hunting License.

When leaving make sure that the bird pen doors are shut and have the locks applied. In addition make sure that no birds remain in catch box with the catch box door shut. (Birds would not be able to feed or drink). If any dead birds are removed from the pen log these into the sign-in book (indicate number of dead and that they were removed) so I can keep track of what we are losing.
